

IT Support

GTS Geotech has a proven track record in designing and implementing innovative and cost effective UNIX and Windows system solutions for the oil industry. We also have the strength in depth to deliver expert on-going support and administration, whatever your IT environment needs may be.

GTS Geotech has grown to become the established leader in the field of outsourced IT support services. We provide a range of specialist services from complete IT outsourcing, with customized Service Level Agreements to call-out services on-demand. GTS Geotech provides companies with worldwide IT support solutions, available 24/7, on-site or remote.

Whether as a one-of-a-kind project, ongoing support or a full outsource contract, our experts can:

- 
- Domain specialists—unrivalled expertise in providing oil and gas IT solutions
 - Cost effective—significant saving on comparative services from key competitors
 - Flexible, managed services—full outsource to a call-out on demand
 - Worldwide support solutions
- Administer your UNIX and Windows servers and desktops
 - Optimize your network and system performance
 - Install and upgrade hardware
 - Install and configure applications, databases and operating systems
 - Define best-practice policies and procedures for backups, security, access control, disk usage, etc.

GTS Geotech is the largest independent supplier of applications and systems support to the oil and gas industry.
